CAREER OBJECTIVE

Full Stack Developer with expertise in the MERN stack (MongoDB, Express.js, React, Node.js) and growing proficiency in Next.js for modern web applications. Strong in building responsive, user-friendly interfaces and scalable backend systems. Currently pursuing an Engineering degree while enhancing problem-solving skills through Data Structures & Algorithms in Java. Passionate about applying technical knowledge to real-world challenges and continuously improving as a developer.

WORK EXPERIENCE

Web Development • Internship

Aug 2025 - Sep 2025

CodSoft, Virtual

Web Development Intern (Virtual) | CodSoft

2025/08/05 – 2025/09/05

- Worked on real-world web development tasks as part of a virtual internship program.
- Gained hands-on experience with HTML, CSS, JavaScript, and MERN stack technologies.
- Built and optimized responsive web applications with a focus on modern UI/UX design.
- Implemented features such as authentication, CRUD operations, and interactive components.
- Strengthened problem-solving skills by working on front-end and back-end integration.
- Collaborated in a professional workflow environment, improving coding practices and project management skills.

EDUCATION

B.Tech, Computer Science & Engineering

2024 - 2028

Ajay Binay Institute of Technology, Cuttack

CGPA: 7.50/10

TRAININGS / CERTIFICATIONS

Web Development

Jan 2025 - Jul 2025

Udemy, Virtual

Web Development Course | Udemy

2025/01/17– 2025/01/17

- Completed an intensive web development course covering HTML, CSS, JavaScript, React, Node.js, Express, and MongoDB.
- Learned to build full-stack web applications with authentication, REST APIs, and database integration.
- Developed responsive and user-friendly front-end designs using modern UI frameworks.
- Gained practical skills through hands-on projects, focusing on problem-solving and real-world applications.

PROJECTS

[Hackathon-Project-Hub ↗](#)

Aug 2025 - Sep 2025

A full-stack hackathon management platform with teams, projects, tasks, public showcase, and a judge portal for submissions, scoring, and badges.

[Task-Manager ↗](#)

Jul 2025 - Aug 2025

A comprehensive task management system built with React, Node.js, Express, and MongoDB. This application allows teams to efficiently manage tasks, track progress, and collaborate seamlessly.

[Authentication ↗](#)

Jun 2025

A full-featured authentication system built with the MERN stack (MongoDB, Express.js, React, Node.js) supporting advanced features like JWT authentication, refresh tokens, and more.
